## What's EFile error code 184?

EFile **error code 184** means there are some errors in the tax return data, **you need to fix it first and then efile again**. There should be one or more **error clue codes** following code 184 as the EFILE result.

You need to look up the **error clue code, (note, not code 184, but the error clue code)** from Chapter 2 of CRA's EFILER manual.

You can **find Efiler manual chapter 2 through** this [introductory link](#) and please bookmark it or here is the direct link to the chapter 2:
